A Journey of Discovery and Learning – Lake Symposium 2024

A Few students of grade IX got an amazing opportunity to attend the Lake Symposium 2024. A three month research on the flora and fauna of the Ulsoor lake was done by these selected students. While one did research on the birds, the other did on the chemical analysis, making it as interesting as it gets. Students had an amazing exposure during their visit to Moodubidire, where the seminar took place. Students learnt a great deal about the birds, butterflies, the beach of Moodubidire and even cleaned the trash on the beach. However, they initially learned that it is quite impossible to clean the trash if the trash production is not addressed at the source.

Celebrating Teachers – A Heartfelt Tribute

Our teachers are the pillars of strength, wisdom and guidance. They are the storehouse of knowledge who help build the foundation of our education. On this special day, our little ones expressed their gratitude with an extraordinary performance. The Program schedule included a group song, group dance, skit, ramp walk by teachers, card distribution and vote of thanks. The day beamed with pride, curiosity and enthusiasm for the teachers.

हिंदी सप्ताह को बड़े उत्साह के साथ मनाया गया।

हिंदी सप्ताह के दौरान बच्चों ने न केवल भाषा के प्रति अपनी समझ और लगाव को प्रदर्शित किया, बल्कि मंच पर अपनी प्रतिभा का भी शानदार परिचय दिया। कक्षा के छोटे बच्चों से लेकर बड़े बच्चों तक, सभी ने अपनी भागीदारी से कार्यक्रम को यादगार बना दिया। बच्चों ने अपनी प्रस्तुतियों के माध्यम से यह दिखाया कि हिंदी केवल एक भाषा नहीं, बल्कि एक संस्कृति और सभ्यता की पहचान है। मालाओं पर आधारित नाटक के माध्यम से बच्चों ने भाषा की बुनियादी बातों के महत्व को उजागर किया। उनके द्वारा गाए गए गीतों ने हिंदी भाषा की मिठास का अनुभव कराया, और नाटकों के जरिए उन्होंने हास्य और संदेश दोनों को एक साथ प्रस्तुत किया। भाषणों में भाषा के महत्व को रेखांकित करते हुए बच्चों ने आत्मविश्वास से अपने विचार रखे। यह पूरा आयोजन बच्चों के हिंदी सीखने के प्रति रुचि को और बढ़ाने में सफल रहा।

"हिंदी दिवस, भाषा का सम्मान।"

From Seed to Oil

Students of grade 2 went on an educational field trip to the Saptham Taila Oil Mill on 11th September, 2024. The children got an opportunity to observe how machines are used to extract oil from seeds. They were fascinated to see a variety of seeds and the oils produced from each one. During the visit, they learned that 3.5 kilograms of groundnut seeds are required to produce just one litre of oil. The students were curious and asked many thoughtful questions about the oil-making process. The experience gave them a deeper understanding of how oil is made. They also learnt about the importance of quality and purity in oil production. The trip sparked an interest in machinery and agriculture among the students.

Into the Wild

On the morning of 20th September, 2024, Nursery, LKG, and UKG children eagerly boarded buses to visit Bannerghatta National Park. The journey was filled with singing, dancing, and bonding. Upon arrival, they enjoyed refreshments before embarking on a thrilling safari, spotting elephants, deer, bison, bears, tigers, and flamingos. An electric buggy ride through the zoo delighted the kids, offering close-up views of giraffes, zebras, hippos, exotic birds like macaws and peacocks, snakes, iguanas, and more. The Tyrannosaurus Rex statue added a prehistoric charm. After a healthy lunch, they returned to school with laughter, shared stories, and a restful nap, ending a perfect day.

Exploring Communication of India

The students of grade 4 visited a unique museum dedicated to the journey of the Indian communication system, located on Museum Road. Sandesha museum is housed in a heritage listed building dating back to 1804. The museum displays the artefacts and exhibits showcasing how Indian communication has evolved. The students viewed the wide display of envelopes and stamps that go back to 1701, various communication instruments such as typewriters, Adding and Listing (AL) machines, telephones and others. They also saw bags and uniforms of the bygone era. The feather in the cap was an original letter written by Subhas Chandra Bose. There were various devices such as Philascope (postage stamp viewer that magnifies a stamp) and Signascope (that is used to determine the authenticity of a stamp). The field trip was informative and enjoyable.

Science of Food: From Farm to Packaging

The students of grade 5 and 6 visited the Gandhi Krishi Vignana Kendra (GKVK) to explore the science of food. The students learnt a great deal about the different food making processes, food storing processes and how different foods are experimented before they are introduced in the market for public use. The students got a new perspective on the different packaged foods that they have been using but never really thought about the making process. Overall, the trip to GKVK was an extremely insightful one.

A Deep Dive into Marine Life

On 02/10/2024, our first graders had the exciting opportunity to visit Namma Bengaluru Aquarium, Cubbon Park. This visit was aimed at expanding our students' understanding of marine ecosystems, aquatic animals, and environmental conservation. Upon entering, we were greeted by a semi-circular wall of water teeming with colourful fish, offering a preview of the wonders to come. The students were captivated by the variety of species swimming effortlessly, and their curiosity only grew as we moved deeper into the aquarium. The students learned about the diversity of marine life, from the vibrant coral reefs to the mysterious creatures of the deep sea. Many expressed a newfound appreciation for marine life and a desire to learn more about how they can help protect the oceans. The trip was not only a fun and engaging way to learn about marine biology but also a powerful lesson in environmental responsibility.

Creativity Unleashed: A Day at BCC

The students of Grades 8 and 9 went for their field trip to The Bangalore Creative Circus on 24th October 2024. This is a 20,000 sq ft space located in the Yeshwanthpur Industrial Area. Formerly used as a steel factory, this space has been transformed into a place that celebrates nature, art, culture, science and sustainability. The place has been made entirely with recycled material. Students had a unique experience as they got a first hand understanding of various sustainable practices that have been used in this world's first urban sustainability laboratory.

Exploring Innovations

On a recent visit to the Science Gallery in Bangalore, students from Grades 7, 9, and 10 had an engaging and enlightening experience. The gallery featured a wide range of interactive exhibits that provided opportunities to explore and learn about various scientific concepts, such as different types of sound instruments, the Symputer (a simple computer), Kombucha, bird habitats, and many other intriguing tools and devices. One of the standout exhibits demonstrated the use of triangles for land measurement, showcasing the techniques employed by surveyors in earlier times. Another fascinating display featured a test machine designed to study how the human brain analyzes time. The visit proved to be an enriching experience, sparking curiosity and encouraging creative thinking about scientific ideas. Grade 7 students had the opportunity to create birds using origami sheets, while students from Grades 9 and 10 expressed their thoughts and feelings through pictorial representations.

Stay Safe Online: Cyber Security Awareness

In October, Auro Mirra International School celebrated Cyber Security Awareness Month, which aimed at promoting safe online behaviour among students through a skit performed by the talented students of Grade 7. The skit focussed on the critical issue of social media content sharing. Through their performance, the students illustrated various scenarios where sharing inappropriate or harmful content on social media could lead to serious consequences, both immediate and long-term. The skit was not only entertaining but also deeply educational, driving home the message that what we post online can have a lasting impact on our lives. We also had a session conducted by a team from Indusface headed by Ms. Pavithra on topics such as cyber threats and best practices for safe internet usage.

Lights, Joy & Celebration

Diwali, the most awaited festival of the year, was celebrated with great pomp this year. Students danced, sang, enacted various plays, made rangolis, painted diyas and lit them around the school campus. The students spoke about the various ways in which they can make the diwali celebration, a more sustainable and eco- friendly one during the special assembly.

Kannada Rajyotsava: Celebrating Our Heritage

ಕನ್ನಡಮ್ಮ ನಿನಗೆ ನೂರು ನಮನ ದಿನಾಂಕ ೭/೧೧/೨೦೨೪ ರಂದು ನಮ್ಮ ಶಾಲೆಯಲ್ಲಿ ಕನ್ನಡ ರಾಜ್ಯೋತ್ಸವವನ್ನು ಆಚರಿಸಿದೆವು. ಶಾಲೆಯ ಆವರಣವನ್ನು ಅಲಂಕರಿಸಿ ನಾಡ ಧ್ವಜವನ್ನು ಹಾರಿಸಲಾಗಿತ್ತು. ವಿಶ್ವವಿನೂತ ಹಾಡು, "ಕೆರೆಗೆ ಹಾರ " ಜಾನಪದ ನೃತ್ಯರೂಪಕದ ಮೂಲಕ ಚಿಕ್ಕದಾದ ಚೊಕ್ಕದಾದ ಸಾಂಸ್ಕೃತಿಕ ಕಾರ್ಯಕ್ರಮವನ್ನು ಹಮ್ಮಿಕೊಳ್ಳಲಾಗಿತ್ತು. ಕೊನೆಯಲ್ಲಿ "ಭಾರತ ಜನನಿಯ ತೆನುಜಾತೆ" ನಾಡಗೀತೆಯಿಂದ ಕನ್ನಡ ನಾಡು ನುಡಿಗೆ ಗೌರವಿಸಿ ೬೭ನೇ ಕನ್ನಡ ರಾಜ್ಯೋತ್ಸವವನ್ನು ವಿಜೃಂಭಣೆಯಿಂದ ಆಚರಿಸಿದೆವು

A Day for Children: Celebrating our Future

"The children of today will make the India of tomorrow.
The way we bring them up will determine the future of the country."
- Jawaharlal Nehru.

Children's Day, is a special occasion dedicated to the joy, creativity, and boundless potential of our students. A highlight of this year's Children's Day was the impressive performances put on by our teachers. They went above and beyond, working tirelessly to create a delightful show that brought joy and excitement to the entire school. The teachers stepped out of their traditional roles and engaged in performances that included musical skits, chess-themed fashion show, songs and dances that showcased their enthusiasm and creativity. These moments were a testament to the love and dedication our teachers have for their students.

Fractions Made Easy

A Math Pep Session was conducted on 16th November, 2024 on the topic of Fractions. The session saw enthusiastic participation from parents of students in classes 3 to 8. The event was highly interactive and fruitful, where parents actively engaged in various activities and fraction-based games designed to enhance their understanding and ability to support their children's learning. The session was well-received and the parents expressed their appreciation for the engaging format and practical approach to the topic.

Presents

The Grand Celebration: Our Annual Showcase

The Celebration Day is generally the heartbeat of our school calendar—a moment when the spirit of creativity, teamwork, and talent comes alive. This year's theme, "Panchatatva," served as the foundation for our performances, beautifully blending tradition and contemporary artistry. The day began at the NIMHANS Convention Centre (our venue) with our little ones from Nursery to Grade IV mesmerizing us through their colourful and melodious performances. The second half had our Grade V to X students taking us through a series of musical renditions, graceful dance movements and artistic presentations, all tied to the theme. The day ended with the audience reflecting on the deeper message they carry- the need for balance, harmony, and respect for nature and one another, that these acts are not just entertainment—they are a celebration of life, learning, and the interconnectedness of all things.
